

MINIGYRO™

FOR FILM & VIDEO

STABILIZATION: BRUTE GRYOS
POINT-OF-VIEW: SIDE (LEFT OR RIGHT)
MOVEMENT: PAN, TILT & ROLL

FOCAL RANGE: 18-250MM
MAX. CAM. WT.: 40 LBS.
INSTALL TIME: 2 MIN.

Optimized for small size / weight cameras and lenses, the MiniGyro shoots from right or left side, and provides pan, tilt and roll; great for air-to-ground or air-to-air, and fast action sequences. Straight-forward shots can be made by crabbing the helicopter; up to @ 40 mph. The MiniGyro is ideal for use in helicopters as well as cars, boats, planes and hand-held shooting. Your Operator, your AC, and your camera package. The MiniGyro's compact size and simplicity, makes it our most versatile, portable and cost-efficient piece of equipment, and is a superb still camera stabilizer too.
